

## **EZTwainX Control License Agreement** (revision e – 2010.01.20)

This license agreement (the Agreement) is a legal contract between you (either an individual or single organization)(the Licensee) and Dosadi LLC (Dosadi), a company in Washington State, USA regarding the use of the EZTwainX ActiveX Control version 1.0 through 1.99 and its supporting DLL files and associated documentation and programming tools (the Software).

By accepting this Agreement or by installing, copying, or otherwise using the Software, you agree to be bound by the terms of this agreement, including the warranty disclaimers, limitations of liability, and termination provisions below. If you do not agree to the terms of this agreement, do not install the Software, and if you are viewing this document in the setup for the Software, exit the setup program now.

### **Conditional Grant of License**

Within and subject to the limitations imposed by the other parts of this Agreement, Dosadi offers license to use the Software according to the following scenarios:

- A. Dosadi grants to Licensee the right to integrate the Software into one named software application which may then be employed or distributed as Licensee sees fit in any number of versions, revisions, or configurations, by using an "EZTwainX Single Application License Key" legally obtained from Dosadi or an authorized agent of Dosadi.
- B. Dosadi grants to Licensee the right to use the Software on any number of pages of a website accessed through one domain name, distributed from any number of servers, by using an "EZTwainX Domain License Key" legally obtained from Dosadi or an authorized agent of Dosadi.
- C. Dosadi grants to Licensee the right to use the Software as an integrated component in any number of software applications or systems authored, employed, deployed, distributed or maintained by Licensee, including but not limited to any mixture of desktop applications, web sites and web services, by using an "EZTwainX Universal License Key" legally obtained from Dosadi or an authorized agent of Dosadi.
- D. Dosadi grants to Licensee the right to use the Software on one or more development computers for a trial period determined by the Software itself.
- E. Dosadi grants to Licensee, subsequent to and contingent upon Licensee's purchase of a license "Plus Source", the right to obtain, upon request to Dosadi and without undue hardship or delay, a collection of files ('Source Files') sufficient to recreate the Software (excluding Dosadi digital signatures) using readily available software development tools. Licensee may keep, examine, modify, recompile and otherwise make reasonable use of the Source Files. Licensee may not, however, use the Source Files to create a scanning or imaging toolkit or component which substantially competes with the products offered by Dosadi at the time of license purchase. Licensee must secure the Source Files with the same diligence Licensee would apply to other files it considers confidential.

### **Ownership**

Dosadi licenses use of the Software to Licensee, but Dosadi retains all right and title to the Software.

## **Things You May Not Do**

The Software is protected by United States copyright laws and international treaties. You must treat the Software like any other copyrighted material—for example, a book. You may not:

- copy the Software except to make archival or backup copies as provided above, or in ways explicitly enumerated in the “License Grant” section above,
- in your own installer, overwrite a higher-versioned copy of one of the Redistributable Files with a lower-versioned copy without warning the user and obtaining confirmation,
- “crack” or otherwise attempt to circumvent or defeat the encryption and other measures embedded in the Software to protect our rights,
- publish the Software in a library or toolkit, or otherwise offer it to other developers in a form that substantially duplicates the features and benefits of the Software as offered by us.

## **Privacy, Security and Viruses**

The Software is developed, tested, prepared for distribution and uploaded for distribution from computers which have commercial anti-virus and anti-spyware products installed and running at all times. We will exercise due diligence to avoid delivering software contaminated with any form of virus, spyware or other 'malware'.

The Software will not transmit any information outside the host computer unless a function of the Software is invoked which clearly, by labeling or documentation, constitutes a request to the Software to so transmit such information. The Software does not create any hidden processes or tasks on any computer at any time. During operation, the Software does not modify any system files except to write to the Registry according to generally accepted practices. The Software writes to the computer's file system in only four cases:

1. For diagnostic logging. The generated log files may contain sensitive information about the host computer such as the computer name, owner's name, and OS version and configuration, as well as text being read, written, encoded or decoded by the Software. It is licensee's responsibility to redact any such log file to meet licensee's security goals.
2. During install or uninstall of the Software, the Registry may be modified and local files that are part of the Software may be created or deleted or their timestamps modified. The install and uninstall follow applicable recommended practices.
3. During execution of certain operations, the Software may create temporary files in the folder designated for that purpose by the operating system. The Software attempts to promptly delete any such files as soon as they are no longer needed.
4. When certain functions or commands of the Software are invoked that are clearly labeled or documented as saving or writing information to a file, or modifying the persistent state of the operating system.

Licensee agrees that Dosadi may, with consent of and in cooperation with Licensee, collect and use technical information related to the use of the Software by Licensee, solely for the purpose of providing support services to Licensee, or for the improvement of Dosadi products.

### **Transfers**

You may transfer all your rights to use the Software to another person or legal entity provided you transfer this Agreement, any numeric Keys, the Source Code if licensed, and the Software itself, including all copies, updates and prior versions, to such person or entity; that you notify us of the date of effective transfer and the recipient; and that you retain no copies, including copies stored on computer.

### **Disclaimer of Warranty**

Dosadi disclaims warranty: the Software and accompanying files are provided "as is". Dosadi and its suppliers and agents do not and cannot warrant the performance or results you may obtain by using the Software. Dosadi and its suppliers make no warranties, express or implied, as to title or infringement of third-party rights, merchantability or fitness for any particular purpose. Licensee assumes all risk of using the Software.

### **Limited Remedy**

Our entire liability and your exclusive remedy for breach of the foregoing warranty shall be, at our option, to either:

- return the price you paid, or
- repair or replace the Software or media that does not meet the foregoing warranty if it is returned to us with a copy of your receipt.

IN NO EVENT WILL WE BE LIABLE TO YOU FOR ANY DAMAGES, INCLUDING ANY LOST PROFITS, LOST SAVINGS, OR OTHER INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM THE USE OR THE INABILITY TO USE THE SOFTWARE (EVEN IF WE OR AN AUTHORIZED DEALER OR DISTRIBUTOR HAS BEEN ADVISED OF THE POSSIBILITY OF THESE DAMAGES), OR FOR ANY CLAIM BY ANY OTHER PARTY.

SOME STATES DO NOT ALLOW THE LIMITATION OR EXCLUSION OF LIABILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU.

### **Termination**

Without prejudice to any other rights, Dosadi may cancel this Agreement if Licensee does not abide by the terms and conditions of this Agreement, in which case Licensee must destroy all copies of the Software and cease any use or distribution of the Software.

### **General Provisions**

If for any reason a court of competent jurisdiction finds any provision of this Agreement or portion thereof to be unenforceable, that provision of the Agreement shall be enforced to the maximum extent permissible so as to effect the intent of the parties, and the remainder of this Agreement shall continue in full force and effect.

The failure of either party to enforce any rights granted hereunder or to take action against the other in the event of any breach hereunder shall not be deemed a waiver by that party as to subsequent enforcement of rights or subsequent actions.

This Agreement including any amendment or addendum which is included in the Software, is the entire agreement between Licensee and Dosadi relating to the Software, and it supersedes any prior or contemporaneous oral or written representations with respect to the Software or other subject matter covered by this agreement.

This agreement shall be interpreted according to the laws of the State of Washington.
